# IONIC VIEW の活用により手段短縮、高機能

The image displays three screenshots of the Ionic View application interface. The left screenshot shows the main landing page with the Ionic logo, version 1.3, and a beta indicator. It features a large button labeled 'Create incredible apps.' and a sub-section describing Ionic as an open source mobile SDK for developing native and progressive web apps. Buttons for 'Get Started' and 'Docs & Help' are at the bottom. The middle screenshot shows the 'Share your apps with the world' section, featuring the Ionic View logo and links to the App Store and Google Play. The right screenshot shows two phones side-by-side. The left phone displays a list of apps under 'MY APPS' with details like ID, size, and modification date. The right phone displays a 'My apps' screen with a list of apps including 'Barkpark', 'Facebook', 'Snapcat', 'Weather tracker', 'Grumblr', and 'Slappy Bird'. Both screens show the Ionic View interface with its characteristic blue header and footer.
